

Nutrients for Life Teacher Ambassadors

Purpose:

The Nutrients for Life Ambassador Program provides an opportunity for educators to become spoke persons about Nutrient for Life curriculum and materials. The goal is to provide other educators with information about the importance of soil science in your classrooms. The Nutrients for Life team will continue to build their relationships with the Nutrients for Life Ambassadors as they work together toward continual growth of the foundation.

Duties:

Nutrients for Life Ambassadors will participate in the following activities as needed:

- Volunteer as needed
- Conduct workshops, speaking opportunities and webinars in your state to unite teachers in your area
- Share teaching experiences using Nutrients for Life materials in person, blogging, and on social media
- Bring awareness of Nutrients for Life message and materials
- Understand Nutrients for Life key messages
- Express a commitment to the Nutrients for Life message and materials
